***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 47-136 are canceled.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: applicant's response of October 18, 2006 has obviated all outstanding objections and rejections and placed the application in condition for allowance. In particular, applicant has indicated the proper support for Figures 22A-22D, 23 and 24 and the objection to the specification is withdrawn. Additionally, applicant has filed terminal disclaimers to obviate the double patenting rejections. Claims 5-13, 27, 34-38, 40-45 and 149-155, previously withdrawn, have been rejoined as they depend from claims that are now allowable. Claims 47-136 were non-elected without traverse and are now canceled in order to place the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
